## **Ottawa Feed and Grain Company**

In 1963, Ottawa Feed and Grain Company had purchased the mill and started on our journey of dedication and hard work in becoming your farm needs and feeds provider for farming families in northwestern Ohio. We expanded in 1972 to offer their customers a line of hardware and purchased additional space in 1976 to offer a full line with True Value® Hardware. In 1977, Odenweller Milling Co. was purchased for additional grain storage, and its office is now occupied by the license bureau. Land west of the railroad was purchased, again to expand our grain storage capabilities to serve our growing customer base. Our latest expansion of a new True Value® Hardware store on Meadow Glenn Drive expands our hardware line. Ottawa Feed and Grain works diligently to help our customers get the most for their hard-earned dollar.

### **Building lifelong relationships on our reputation of integrity and quality feed value.**

In order to better serve our customers, Ottawa Feed and Grain has added seed to the mix. We are proud to offer Stewart Seeds with "Local Solutions and Promises Delivered," providing you with the latest in industry-leading genetics and technology to maximize your profits per acre. Ottawa Feed and Grain is ready to share our many years of experience to answer all your feed questions. To be able to do the best job possible, you need the right people, and our staff is very friendly and helpful.

Our website [ottawafeedandgrainco.com](http://ottawafeedandgrainco.com) has your complete list of daily market quotes and other general agriculture-related information. Assisting you in identifying the best options for your marketing program and working to offer top prices for your hard work is our goal.
